EXECUTIVE SUMMARY

Aspiring Software Engineer and Computer Science student with a robust academic foundation and extensive hands-on experience in crafting scalable and efficient software solutions. Demonstrates a proven ability to deliver innovative outcomes through practical projects. Eager to apply technical expertise and thrive in collaborative team environments to drive meaningful results.

EDUCATION

Coimbatore Institute of Technology **June 2021 - Present**
Master of Science in Software Systems (Integrated); CGPA: 8.30

SKILLS

- Programming Languages: C++, Python
- Web Development : HTML, CSS, JavaScript, TypeScript, React.js, Node.js, Express.js.
- Databases : MySQL, MongoDB.
- Other Tools and Tech : Github, Postman, Docker.
- Soft Skills : Self-Motivated, attention to detail, problem-solving, leadership, adaptability, communication and teamwork.
- Areas of Interest : Full-stack Development, Back-end Engineering, Competitive Programming, Mobile App Development.

EXPERIENCE

Full Stack Developer – Create Digital Solution **Dec 2024 – Present**
Freelancing

Currently working as a Full Stack Developer handling multiple roles in MERN Stack development. Involved in diverse projects using technologies like Vercel, AWS, SQL, HTML, CSS, and JavaScript.

Full Stack Developer (Full-Time) – TIA IT Wing **July 2024 – Nov 2024**
Internship

Took on a full-time role in the same organization, leading development of two major MERN Stack projects. Managed backend and frontend tasks, and oversaw deployment workflows using AWS services.

Full Stack Developer (Part-Time) – TIA IT Wing **Feb 2024 – June 2024**
Internship

Gained practical experience in MERN Stack development. Contributed to the creation of scalable and responsive web applications, with a focus on AWS cloud integration and component-based architecture.

PROJECTS

Investment Insights Chatbot

Tech Stack: ReactJS, MongoDB, Mistral LLM (Ollama), Clerk, Node.js

- Built a full-stack chatbot for financial analysis using Mistral LLM (Ollama), with secure auth via Clerk and data storage in MongoDB.
- Delivered structured investment advice through a scalable React frontend and optimized Node.js backend.

Eats.com – Food Ordering Platform

Tech Stack: MERN (MongoDB, Express, React, Node.js), JWT, Stripe

- Developed a MERN-based food ordering app with JWT authentication, Stripe payments, and an admin dashboard.
- Implemented responsive UI and real-time order tracking for enhanced user experience.

CERTIFICATIONS

- **Udemy - Web Developer Bootcamp 2024**
 - Successfully completed the Web Developer Bootcamp 2024 program.
- **Coursera - Developing Front-End Apps with React**
 - Accomplished the certification in Developing Front-End Apps with React on Coursera.
- **LeetCode - Python**
 - Completed a total of 200+ coding problems across leading platforms like LeetCode, GeeksforGeeks. Showcasing a strong dedication to mastering data structures and algorithms.
